FASTER	4000	\$ 440.00	9	8	315	13	43	21	15.44%	
POUNDER	5000	\$ 550.00	9	6	315	16	34	5	3.68%	
UBER POUNDER	6000	\$ 660.00	10	6	315	19	32	1	0.74%	

By day 6, rookies should be able to plant 1000 trees. If they are not able to, a plan should be made with the foreman / supervisor to get them to this point. They must be here by the end of the following shift.

By the day 10, rookies should be making at least minimum wage (at least \$125.00), and must continue to do so consistently, at the progression shown above. If they are not able to, a plan should be made with the foreman / supervisor to get them to this point. They must be here by the end of the following shift.

By day 14, a rookie planter should be able to plant 1500 trees consistently. Last year 15% of new planters left before this point.
